

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

## Person 1

To easily find accommodation in the place where we travel

can additionally given the users the possibility to receive relevant notification

Users especially value app notification information about the trip status, price changes, and reminders about the travel plan

#### Person 3

Adding an additional support like voice recognition

Implementing the weather forecast future in the app

Show the traveller in a given area valid emergengy number

#### Person 2

mplementir
a fully
secured
payments
aateway.

Users should assured at every stage of the payment process

Including an language translator in travel

#### Person 4

To facilitate the integration, remember to add a log-in option within your app

The area to provide with detailed and upto-date information about available transportation means schedule, pricing, and other important details

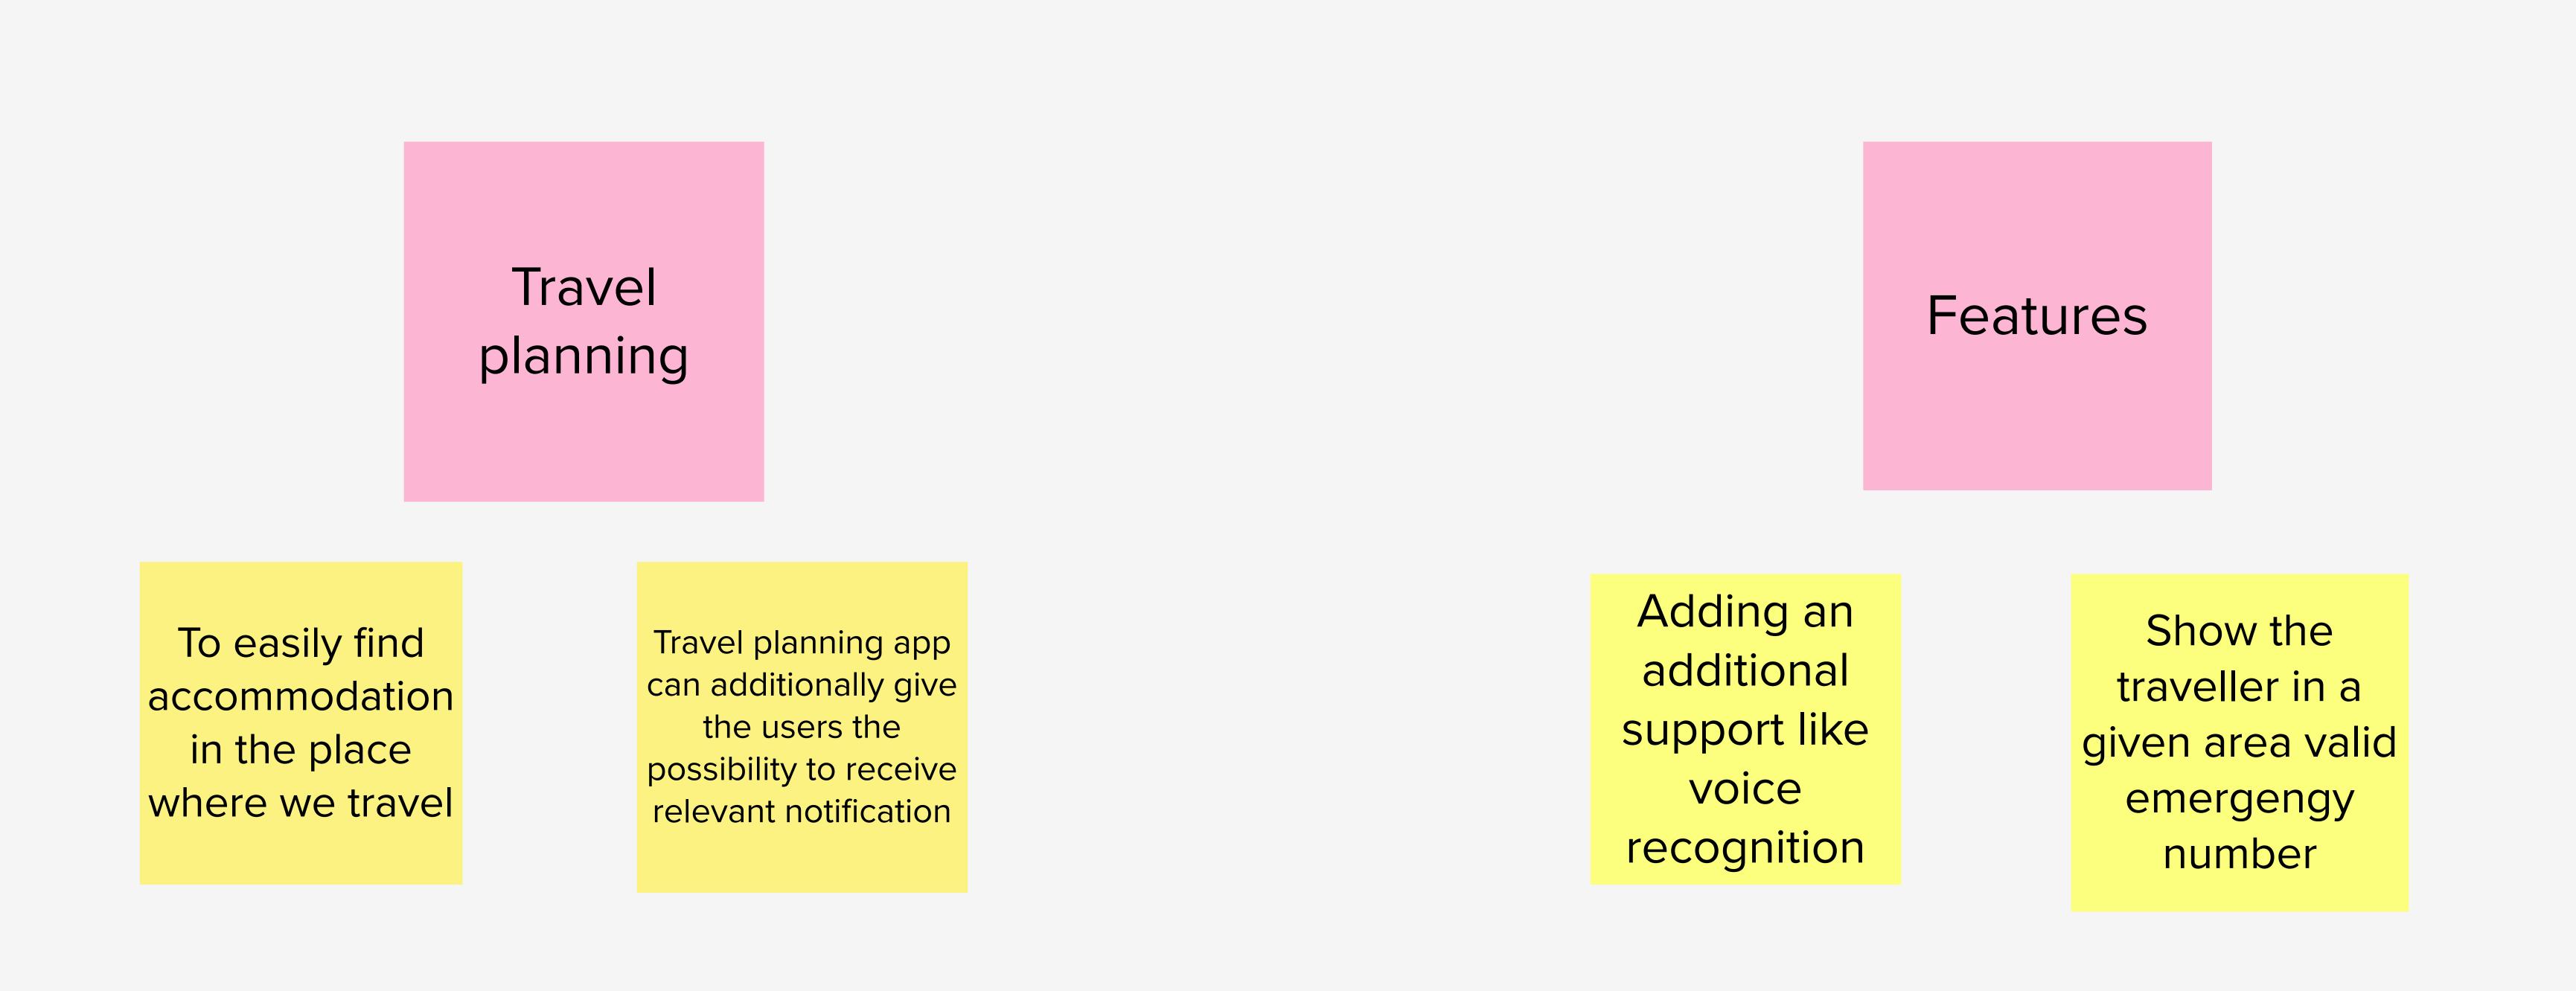

Should provide a google map API as it is necessary

# Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

① 20 minutes

Implementing a fully secured payments gateway.

Users should assured at every stage of the payment

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes
